Description:	At the 6/23/05 ACCB meeting, OK requested that the T0031 contain a count of how many inspections in the last 24 months had the OS/OW field checked. This request was originally added to CR 3115.

[2005-08-22] During the 8/18/05 ACCB meeting it was decided that this portion of CR 3115 would be separated out into its own CR so the inclusion of CR 3115 could proceed in the next SAFER update (Oct 3). Volpe checked with the MCMIS team concerning the request for the count of how many inspections in the last 24 months had the OS/OW field checked. There is no such field at this time, and it will require a new calculation.

[2005-09-22] Discussed at 9/22/05 ACCB meeting.
This CR was created because the data requested from MCMIS was not available to be incorporated into CR 3115 for the October 3rd Release of SAFER. Recommended for Approval. |
